

PREPARING PRINCIPLES OF DIGITAL PRINTING

Self-adhesive films (the wall by the stairs)

GRAPHIC FORMAT:

- Tif with LZW compression or
- Eps

Full color CMYK MODE, COLOR BLACK O STORES 50-50-50-100

Fonts converted to VECTORS! LAYER flattened!

SCALE 1:1, Resolution 150 dpi

Required standard color - Cromalin, Matchprint, digital proof. If the pattern does not provide, we reserve the right not to bear responsibility for color reproduction.

It is important to keep making graphics about 2cm safety margin on each side, or not post at the edge of the sticker strategically important information.

Image Dimensions: 20m wide x 0.9 m height.

Southern slope of the stairs at the station center: 30 degrees.

Files ready to print please upload to FTP:
